1. Getting started

What is GWTrack?

GWTrack is your agency operating system. It connects the work you do every day — prospecting, FNAs, licensing, training, mentoring, and production — into one place so you, your CFM, and your leadership can see progress and take action.

Signing in

1. Open your agency's GWTrack URL (for example `https://your-agency.gwtrack.com`).
2. Sign in with the email and password provided at registration.
3. Complete email verification if prompted.
4. On first login, you may see a **profile completion** prompt. Fill in required fields so your team can support you.

The main layout

After login you land on **My Dashboard**. The screen has three main areas:

Area	What it is
Top bar	Global search, notifications bell, and your account menu
Left sidebar	Main navigation — grouped by Trackers, My Team, Communications, Resources, and Admin
Main content	The page you are working on

Sidebar groups

- **Top links** — Dashboard, Profile, Messages, CFM tools, Help (based on your role)
- **Trackers** — Personal progress checklists and performance tools
- **My Team** — Downline, prospects, recruiting, FNA (leaders and producers)
- **Communications** — Announcements, events, calendar, notifications
- **Resources** — Documents, videos, links, forms
- **Admin Management** — Setup and user management (admins and leaders only)

Click a group name to expand or collapse it. Your last-open groups are remembered in the browser.

Global search

Use the **search box** in the top bar to find:

- Team members (if you have team access)
- Prospects
- Resource documents and videos
- Training courses
- Tasks
- Calendar events
- Announcements

Type at least two characters. Results are grouped by type. You only see items your role allows.

Notifications

Click the **bell icon** for alerts about tasks, mentoring, training, announcements, rank progress, and more. Open **Notifications** in the sidebar for the full list and preferences (email, SMS, push where enabled).

5. Trackers

My Dashboard (`/dashboard`)

Your home base after login.

- **Stat cards** — Profile completion, onboarding, licensing, FAP, training, prospects, production, and more (varies by role).
- **Development Journey** — Progress widgets with next steps for each program.
- **Team overview** — Leaders see downline health, hot prospects, compliance alerts.
- **Profile completion** — Prompt to fill missing required fields.

Click any stat card (where linked) to see member lists or open the related tracker.

My Profile (`/profile`)

Keep your record accurate for the agency and your upline.

Tab / section	What to maintain
Basic info	Name, email, phone, location, timezone, bio
Licenses	Jurisdictions where you hold insurance licenses
Production	Post annual premium entries (feeds Production Dashboard and goals)
Recruits & invitations	Registration invite links and pending invitations
Checklists	Quick view of program checklist status
Profile photo	Headshot for directory and CFM tools

My Tasks (`/tasks`)

Your task command center.

View	Use for
List	Sort and filter all tasks
Board	Kanban by status
Calendar	Due dates on a calendar
Team	Tasks you assigned or that involve your downline

Stat cards show total, due today, overdue, completed this week, high priority, and assigned to you.

Tips:

- Use filters for priority, status, assignee, and date range.
- Add comments on tasks for async collaboration.
- Tasks can be created manually or generated from prospect stage automations.

My Onboarding (`/onboarding`)

Step-by-step checklist for new associates: orientation, agreements, system setup, and first actions. Mark steps complete as you finish them. Some steps require CFM or leader **review** before they count as done.

Licensing Tracker (`/licensing`)

Tracks your path to becoming licensed: study, exam, application, appointments, and related milestones. Progress rolls up to your Dashboard and CFM visibility.

Compliance & Renewals (`/compliance`)

After initial licensing — ongoing compliance:

Record type	Examples
State / provincial license	Renewals by jurisdiction
E&O insurance	Policy expiration
AML training	Refresher due dates
Carrier appointments	Contracting renewals
Continuing education	CE credits by period

- **Sync from profile licenses** — Pulls jurisdictions from your profile.
- **Add record** — Manual E&O, AML, CE, etc.
- Leaders with licensing permissions can **verify** records.

Field Apprenticeship (`/field-apprenticeship`)

The FAP checklist for trainees. Work through phases with your CFM. Completion feeds rank advancement and CFM effectiveness metrics.

CFM Training (`/cfm-training`)

Checklist for associates pursuing **Certified Field Mentor** certification. Separate from the CFM Portal day-to-day tools.

Training Center (`/training`)

The **GWTrack Academy** — self-paced learning.

Area	URL	Purpose
Hub	`/training`	Courses, progress, points, streaks
Courses	`/training/courses/{slug}`	Modules and lessons
Assignments	`/training/assignments`	Required courses from leadership

Area	URL	Purpose
Learning paths	`/training/paths`	Curated course sequences
My Learning Plan	`/training/plan`	Personalized recommendations
Certifications	`/training/certifications`	Earned credentials
Achievements	`/training/achievements`	Badges and leaderboard
Coaching	`/training/coaching`	CFM trainee assignment view
Reports	`/training/reports`	PDF/email progress reports

See the Training Academy guide for full detail.

Production Dashboard (`/team/production`)

One dashboard for everyone; content adapts to your role.

All members see:

- Posted personal production for the selected period (week, month, quarter, YTD)
- Credited YTD total from profile
- Monthly production trend chart
- Recent posted entries

Team leaders additionally see:

- Agency / team production rollup
- Active producers count
- Top producers table
- Member drill-down (select a member to view their production)
- Link back to Team Command Center

Post production from **My Profile → Production** or (for leaders viewing a member) the member profile.

Goals & Performance (`/goals`)

Plan and track SMART goals tied to recruiting, production, FAP, licensing, and daily activity.

Page	URL	Purpose
Goals hub	`/goals`	Dashboard, active goals, insights
Performance Planner	`/goals/plan`	Income → production → activity funnel

Page	URL	Purpose
Create goal	`/goals/create`	Quick goal wizard
Activity Scorecard	`/goals/scorecard`	Daily/weekly activity vs targets
What-If Calculator	`/goals/what-if`	Model scenarios without saving
Team Goals	`/goals/team`	Leader downline visibility
CFM Coaching	`/goals/coaching`	Coach trainee goals
Reports	`/goals/reports`	PDF/email performance summaries

See the Goals & Performance guide for full detail.

Assessments (`/assessments`)

Take knowledge assessments assigned through the academy. View results and retake where allowed.

---

6. My Team

Downline Dashboard (`/team`)

Team Command Center for leaders.

- Team size, directs, active associates, licensing progress
- Quick links to Production, Recruiting, tree views
- Alerts for compliance, training, and engagement
- Stat cards for team health metrics

Team views

View	Best for
Genealogy Tree	Seeing sponsor relationships visually
Hierarchy Table	Depth, rank, and contact info in a table
Org Chart	Presentation-style structure
Team Table	Searching and exporting the flat member list
My Directs	First-level team only

View	Best for
My Trainees	FAP apprentices you are responsible for
All Downlines	Complete downline directory

Click any member to open their **member profile** — checklists, production, contact info (based on permissions).

Prospect Management (`/team/prospects`)

Your **private insurance sales CRM**. Prospects belong to you unless explicitly shared.

Area	URL suffix	Purpose
Dashboard	`/team/prospects`	Stats, hot prospects, quick actions
Add prospect	`/team/prospects/create`	New lead entry
Pipeline board	`/team/prospects/pipeline`	Kanban by insurance funnel stage
Follow-ups	`/team/prospects/follow-ups`	Due and overdue follow-ups
Appointments	`/team/prospects/appointments`	Scheduled meetings
Analytics	`/team/prospects/analytics`	Conversion and pipeline metrics
AI Coach	`/team/prospects/ai-coach`	Suggested next actions
Shared with me / by me	`/team/prospects/shared-*`	Mentor sharing
Import / Export	`/team/prospects/import` · `export`	Bulk CSV

Insurance funnel stages run from New Lead through Client. Log activities (calls, texts, meetings) on each prospect record. Convert prospects to clients or associates when appropriate.

See the Prospect Sales Funnel guide for full detail.

Recruiting Pipeline (`/team/recruiting`)

Dedicated workspace for **associate recruiting** — separate from insurance sales CRM.

- Recruiting kanban by stage (prospect added → registered → licensing started → active associate)
- Hot candidates and follow-up queue
- Pending registration invitations
- Active recruit journey (directs who registered)
- Link to add recruit candidates with recruiting funnel pre-selected

Use **Prospect Management** for insurance leads; use **Recruiting Pipeline** for building your team.

FNA Management (`/team/fna`)

Financial Needs Analysis workflow for client meetings.

Area	Purpose
Dashboard	Open FNAs, review status, quick stats
My FNAs	List of all records
Create / Wizard	Nine-step FNA data collection
DIME Calculator	Debt, income, mortgage, education analysis
Client portal invite	Send prospect a link to complete FNA online
CFM Review Queue	CFMs review trainee submissions
Agency reports	Leadership FNA metrics

See the FNA Management guide for full detail.

---

7. Communications

Communication Hub (`/communications`)

- Read company and leadership **announcements**
- React, comment, bookmark posts
- Required **acknowledgements** on critical announcements
- Filter by category (training, recognition, compliance, etc.)

Leadership Desk — Create and manage announcements (leaders with permission).
Archive — Browse past announcements.
Campaigns — Multi-message campaigns over time.

Events & Calendar

Tool	Purpose
Events (`/events`)	Agency-wide event list
Calendar (`/calendar`)	Month/week/day views, personal events, shared calendars

Tool	Purpose
Mentor Scheduling (`/bookings`)	Your public booking page, event types, availability

Members can book time with mentors via public links (`/book/{username}`). CFMs manage availability and approve requests.

Notifications (`/notifications`)

- Inbox of all system alerts
- **Mark all read**
- **Preferences** (`/notifications/preferences`) — Choose channels (email, SMS, push) per notification type

Rank Advancement (`/rank-advancement`)

- View rank ladder and current position
- See requirements for next rank (production, recruiting, training, FAP, etc.)
- Submit evidence and track review status
- Leaders review submissions where permitted

Recognition (`/communications/recognition`)

Celebrate wins — licensing, FAP graduation, production milestones, promotions. Leaders can post recognition (with permission).

---

8. Resources

Library Home (`/resources`)

Starting point for agency materials — documents, videos, links, and favorites.

Documents (`/resources/documents`)

- Browse by category (onboarding, scripts, compliance, forms, etc.)
- **Preview** PDFs in browser
- **Download** where permitted
- **Favorite** frequently used items
- Card or list view; search and filter

Videos (`/resources/videos`)

Training and webinar videos with embedded playback. Filter by category (recruiting, product, compliance, etc.).

Recorded Webinars (`/resources/recorded-webinars`)

Archived live sessions for replay.

Links (`/resources/links`)

Quick access to external tools, Zoom rooms, carrier portals, and agency bookmarks.

Associate Participation Agreement

Available under resources/forms — complete and download the participation agreement PDF.

---

9. Admin Management

For users with admin, agency owner, or designated leadership roles.

User Management

- Create users and assign roles (member, CFM, team leader, etc.)
- Edit profiles, reset access, archive/restore accounts
- Suspend messaging if needed

Checklists (Admin)

Configure checklist **types**, **instructions**, and **steps** for:

- Onboarding
- Licensing
- Field Apprenticeship
- CFM Training
- CFM Trainee mentoring phases

Changes affect what members see in their trackers.

Training Setup

Create and publish academy **courses**, **lessons**, **paths**, and **assignments**. Manage assessments and certifications.

Calendar & Booking administration

Set up event categories, organization events, booking event types, and system-wide booking configuration.

Communications admin

- View announcement analytics and acknowledgement compliance
- Send broadcasts and manage newsletters (where enabled)

Notifications admin

Delivery logs and system notification metrics (super-admin / admin).

---

10. Common workflows

Register a new recruit

1. **Recruiting Pipeline** → Add recruit candidate (or Prospect Management with recruiting funnel).
2. Move through kanban stages as you present the opportunity.
3. Send **registration invitation** from profile or prospect record.
4. Recruit completes registration → appears in **Active recruit journey**.
5. Monitor **Onboarding** and **Licensing** trackers.

Run a client appointment (sales)

1. Add prospect in **Prospect Management**.
2. Log calls and meetings on the prospect record.
3. Create **FNA** from prospect or FNA Management.
4. Complete FNA wizard (or send **client portal invite**).
5. Move prospect on **Pipeline board** toward application / client.
6. Post production on **My Profile** when policy issues.
7. Activity may auto-update **Goals** scorecard.

CFM weekly trainee review

1. **CFM Portal** — Check trainee checklist progress and risk flags.
2. **FNA Review Queue** — Review submitted FNAs.
3. **Goals → CFM Coaching** — Coach off-track goals.
4. **Training → Coaching** — Verify course completion.
5. Log mentoring notes and schedule next session via **Bookings**.

Renew a license or E&O

1. Open **Compliance & Renewals**.
2. Sync from profile or edit the existing record.
3. Update expiration date and upload notes when renewed.
4. Leader verifies if your agency requires verification.

Plan your month (production focus)

1. **Goals → Performance Planner** — Set income/production target.
2. Review funnel math (contacts → appointments → sales).
3. Create activity goals or use **Activity Scorecard**.
4. Track prospects in **Prospect Management** follow-up center.
5. Review **Production Dashboard** weekly.

---

11. Permissions and visibility

You only see menu items and data your **role** and **permissions** allow.

Concept	Meaning
Role	Member, CFM, team leader, agency owner, admin, etc.
Permission	Fine-grained ability (e.g. `manage prospects`, `view own team`)
Downline scope	Leaders see their hierarchy, not the whole company (unless admin)
Prospect privacy	Prospects are owned by the associate who created them unless shared
CFM access	CFM Portal and trainee tools require CFM role or assignment

If you need access to something you cannot see, contact your team leader or agency administrator.

---

12. Tips for daily use

1. **Start on the Dashboard** — Check journey widgets and stat cards each morning.
2. **Clear follow-ups** — Prospect Management follow-up center and Tasks due today.
3. **Keep profile current** — Licenses and production entries feed multiple modules.
4. **Use global search** — Faster than hunting through menus.
5. **Set notification preferences** — Avoid alert fatigue; keep critical channels on.
6. **Favorite resources** — Build a personal quick library in Documents and Videos.
7. **One CRM per purpose** — Insurance prospects vs recruiting pipeline are separate by design.
8. **Check Help & Support** — Module guides and tickets when stuck.

---

22. Help & Support

Menu: Help & Support (`/support`)

Feature	Purpose
Submit a ticket	Report bugs, ask how-to questions, request access
My tickets	Track open and resolved requests
Documentation	In-app module guides (see below)
Community wishlist	Vote on enhancement ideas

Include screenshots, the page URL, and steps to reproduce when reporting issues.

---

23. Detailed module guides

These guides go deeper on major modules. Open from **Help & Support → Documentation** in the app, or read the files in the `docs/` folder.
