Field Apprenticeship Program Overview

Explains FAP phases, mentor expectations, and completion requirements.

Field Apprenticeship Program Overview

The **Field Apprenticeship Program (FAP)** is your structured path from new associate to field-ready producer. You are paired with a **Certified Field Mentor (CFM)** who guides licensing progress, training, field activity, and milestone completion inside GWTrack.

Who this program is for

- New associates completing onboarding and licensing
- Associates building consistent prospecting and presentation habits
- Trainees preparing for rank advancement and future mentoring roles

Program goals

- Complete required FAP checklist milestones with CFM confirmation where needed
- Build licensing readiness and compliance habits
- Practice real-world field activity with mentor coaching
- Establish a sustainable weekly rhythm for growth

Program phases

Phase	Focus	Typical outcomes
1. Orientation	Portal setup, expectations, mentor introduction	Profile complete, first CFM meeting booked, FAP tracker open
2. Foundation	Licensing prep, product basics, compliance fundamentals	Licensing steps in motion, core training underway
3. Field Activity	Prospecting rhythm, presentations, mentor shadowing	Logged activities, observed presentations, follow-up discipline

Phase	Focus	Typical outcomes
4. Advancement Readiness	Rank requirements, leadership habits, next-step planning	FAP milestones complete, clear plan for continued growth

Your support team

Role	How they help
CFM	Weekly coaching, checklist confirmation, field guidance, accountability
Sponsor	Encouragement, team culture, recruiting context, early support
Team Leader / Agency Owner	Oversight, capacity, escalation support when blockers appear

How progress works in GWTrack

1. Open **Field Apprenticeship** under My Progress.
2. Complete each milestone and mark it done when finished.
3. If confirmation is required, your CFM (or other notified party) reviews and confirms.
4. Track overall FAP progress from your Dashboard widgets.
5. Use Training Center, Resources, Calendar, and Appointments to support each phase.

Weekly rhythm (recommended)

- **Daily:** Check Dashboard, tasks, and FAP next steps
- **Several times per week:** Training lessons and prospecting activity
- **Weekly with CFM:** Review blockers, confirmations, and field practice
- **Ongoing:** Keep licensing and compliance records current

Completion expectations

- Required FAP checklist items must be completed (and confirmed when required)
- Licensing and training milestones should stay current with your CFM plan
- Field activity should show consistent effort, not one-time bursts

- Ask for help early if you fall behind — your CFM is there to coach, not just evaluate

Helpful GWTrack links

- **Field Apprenticeship tracker** — `/field-apprenticeship`
- **Training Center** — `/training`
- **Resource Library** — `/resources/documents`
- **My Appointments / Mentor Scheduling** — book structured CFM time
- **My Calendar** — keep coaching and training sessions visible

Live support sessions

- CFM Office Hours — Ask apprenticeship and field-coaching questions.
- Product Training Room — Reinforce product knowledge between mentor sessions.
- Mentor Scheduling — Book one-on-one time with your assigned CFM.

Remember: FAP is a guided apprenticeship. Stay coachable, complete the next milestone, and communicate early with your CFM.
