Part 1 — Overview

1. What this module does

FNA (Financial Needs Analysis) helps you document a client's or prospect's financial picture, estimate protection needs, get CFM coaching, and prepare for client meetings — all inside GWTrack.

What you can do here

- **Collect facts** — nine-step wizard (client info, household, income, debt, assets, insurance, goals, risk, summary)
- **Quantify needs** — DIME analysis (Debt, Income, Mortgage, Education) with a protection gap estimate
- **Get mentor sign-off** — submit to your CFM before presenting to clients
- **Invite clients online** — secure links so prospects complete the FNA without a GWTrack account
- **Stay organized** — link FNAs to prospects, schedule meetings, export PDFs, track status

> **Compliance reminder**
> FNA and DIME tools are for **planning and coaching**. Results and AI suggestions are educational — not approved product recommendations. Follow your licensing, carrier, and company guidelines before advising clients.

---

2. Who can access what

---

23. Troubleshooting

FNA Management missing from sidebar

Cause: Your role lacks FNA access.

Fix: Ask your administrator to enable FNA Management for your role.

Submit to CFM disabled or fails

Cause: Completeness below 60%, no assigned CFM, or wrong status.

Fix:

1. Finish wizard steps and save DIME
2. Confirm CFM assignment on My Profile

3. Check status — not already submitted/approved

Cannot edit an FNA

Cause: Record is locked after submission.

Fix: Editable only in Draft, Ready for Review, or Revision Requested. CFMs approve or request revision — they do not edit associate data.

Send FNA Link missing

Cause: Missing license, permission, or linked prospect.

Fix:

1. Add license number to My Profile
2. Confirm FNA Management access
3. On record page, link a prospect first for invites there

Client cannot open invite

Cause: Expired, revoked, or wrong code.

Fix:

Issue	Action
Expired (30 days)	Create new invite
Revoked	Create new invite
Wrong / lost code	Create new invite (codes shown once)
Broken link	Use full URL from invite screen

DIME gap is blank

Cause: DIME not saved or missing income/debt inputs.

Fix: Enter values → **Save DIME to FNA**.

Export shows masked amounts

Cause: Financial-details access restricted on a shared record.

Fix: You always see your own records fully. Shared views may mask dollars.

CFM Review Queue empty

Cause: Filter too narrow, no submissions, or wrong CFM assignment.

Fix: Try **All** filter; confirm trainees have submitted; verify you are their assigned CFM (or leader/owner).

Agency reports empty

Cause: No downline FNA activity in scope.

Fix: Reports populate as team members create and submit FNAs.

Permission denied (403)

Fix: See Section 2 or Appendix F.
