GWTrack — Goals & Performance Module

User Guide

Version: 1.1

Last updated: June 2026

Audience: Associates, CFMs, team leaders, and agency owners using GWTrack

Hub URL: `/goals` (sidebar: **Goals & Performance**)

How to use this guide

If you want to…	Start here
Understand the module	Section 1
Plan your year in 10 minutes	Quick start
Build a full activity funnel	Performance Planner
Track daily/weekly activity	Activity Scorecard
Coach trainees (CFM)	CFM Coaching
Review downline (leader)	Team Goals
Fix a problem	Troubleshooting

Table of contents

Part 1 — Overview

1. What this module does
2. Who can access what
3. Module map — pages and URLs
4. The performance planning journey

Part 2 — Personal planning and tracking

5. Quick start
6. Goals hub
7. Performance Planner
8. Success Blueprint
9. Quick Goal wizard
10. My Goals — views and filters
11. Activity Scorecard
12. What-If Calculator
13. Goal Reports

Part 3 — Leaders and CFMs

14. Team Goals
15. CFM Coaching

Part 4 — Reference

16. Key concepts
17. Automated progress and KPI sync
18. Alerts, forecasts, and coaching insights
19. Achievements and badges
20. Notifications and reminders
21. Tips and best practices
22. Troubleshooting
23. Appendix

Part 1 — Overview

1. What this module does

Goals & Performance connects your daily activities (prospecting, FNAs, presentations, recruiting) to bigger outcomes (production, income, rank advancement).

What you can do

Capability	What it means for you
Goal tracking	Targets by category — recruiting, production, FAP, licensing, etc.
Activity-based planning	Start with income or production; work backward to daily contacts
Success Blueprints	Linked outcome + activity goals from the Performance Planner
KPI automation	Progress from Prospects, FNA, production, training, downline
Scorecard	Daily/weekly view of activity vs targets
What-If	Test targets without creating goals
Team visibility	Leaders see downline progress and off-track items
CFM coaching	Mentor notes, voice notes, deficiency alerts
Reports	PDF performance summaries

2. Who can access what

You need to…	Who typically can
Use the full personal hub (planner, scorecard, reports)	Anyone with **Goals & Performance** access
View **Team Goals** for downline	CFMs, team leaders, agency owners
Use **CFM Coaching** workspace	CFMs and mentors with coaching access

If a page returns **403 Forbidden**, contact your agency administrator.

Technical permission names are in Appendix F.

3. Module map — pages and URLs

Page	URL	When to use it
Goals hub	`/goals`	Dashboard, insights, all your goals
Performance Planner	`/goals/plan`	Build a Success Blueprint from a top target
Quick Goal	`/goals/create`	One goal without a full funnel
Success Blueprint	`/goals/blueprint/{id}`	Funnel progress for a created plan

Page	URL	When to use it
Activity Scorecard	`/goals/scorecard`	Activity vs targets by period
What-If Calculator	`/goals/what-if`	Simulate without saving
Goal Reports	`/goals/reports`	PDF download or email
Team Goals	`/goals/team`	Downline visibility (leaders)
CFM Coaching	`/goals/coaching`	Trainee coaching (CFMs)

Hub header shortcuts: Performance Planner · Quick Goal · Scorecard · What-If · Reports · Team Goals · CFM Coaching

4. The performance planning journey

```
flowchart LR
    A[Set annual target] --> B[Performance Planner]
    B --> C[Success Blueprint]
    C --> D[Weekly Scorecard]
    D --> E[Sync KPIs]
    E --> F[Reports & coaching]
```

Tool	Creates goals?	Best for
What-If	No	Exploring targets before committing
Performance Planner	Yes — blueprint + linked goals	Official annual plan
Quick Goal	Yes — single goal	One-off or personal targets

Part 2 — Personal planning and tracking

Quick start

Goal: Create your first annual plan and know what to do this week.

1. Open **Goals & Performance** → **Performance Planner**
2. Choose **Recruiting**, **Production**, or **Annual Income** based on your focus
3. Enter a realistic target → **Calculate activity funnel**
4. Review daily contacts, appointments, FNAs, applications → **Create Success Blueprint**
5. Each week: **Activity Scorecard** (weekly view) + **Sync KPIs** on the hub

6. Use **What-If** before changing targets mid-year

---

5. Goals hub (`/goals`)

Your home base — four sections top to bottom.

Header and quick actions

Navy/gold header links to all sub-pages. **Performance Planner** for full funnels; **Quick Goal** for one-off targets.

Performance insights panel

Panel	Shows
Active blueprint	Link to your latest Success Blueprint
Performance forecast	Projected completion % at current pace
Coaching alerts	No prospecting, behind pace, deadline approaching

> Forecasts need goals with deadlines and measurable progress. Create a Performance Plan if empty.

Dashboard summary — six stat cards

Card	Meaning
Total Goals	All goals in your account
Active	In progress
Completed	100% or marked complete
Off Track	Behind expected pace
Completion %	Share completed
Current Streak	Consecutive days with goal activity

Below: **Monthly Progress** chart · **AI Coaching** suggestions · **Progress by Category** · **Recent Achievements**

My Goals panel

Full list with filters and six view modes — see Section 9.

---

6. Performance Planner (`/goals/plan`)

Reverse-engineers a top-level target into a funnel of linked goals.

Step 1 — Choose type and target

Planning type	Use when	Example
Annual Income	Plan from take-home income	`$100,000`
Production	Plan from premium target	`$250,000` production
Recruiting	Plan from recruit count	`12` recruits/year
Rank Advancement	Roadmap to SM, ED, SED	Select rank + date

1. Click a planning type card
2. Enter **Target value** (and **Target rank** for rank goals)
3. Optionally edit **Plan name** and **Deadline** (defaults to year-end)
4. **Calculate activity funnel**

Uses your personal conversion rates when available; otherwise industry defaults.

Step 2 — Review and create

Vertical funnel showing each stage with **Annual**, **Monthly**, **Weekly**, and **Daily** targets:

- **Outcome goals** (top) — income, production, recruits
- **Activity goals** (bottom) — contacts, invitations, appointments, FNAs, applications

Create Success Blueprint saves the plan, creates linked goals, and opens the blueprint page.

---

7. Success Blueprint (`/goals/blueprint/{id}`)

Living view of a Performance Plan.

What you see

- Plan name, type, root target, **projected completion %**
- **Recommended actions** when pace is behind
- **Dependency funnel** — each stage with progress %, pace status, targets

How to use it

1. Open from hub **Active blueprint** or after creating a plan
2. Find the **lowest stage** with red/amber pace — that's usually your bottleneck

3. Focus scorecard reviews on that activity
4. **Sync KPIs** on the hub, then return to see updates

> Only you can view your own blueprint.

---

8. Quick Goal wizard (`/goals/create`)

For **one goal** without a full funnel — personal development, simple monthly targets, etc.

Nine steps

Step	What you enter
1. Category	12 categories; optional quick template
2. Goal name	Name, description, hierarchy level, optional parent
3. Target value	Numeric target
4. Measurement type	Number, currency, percentage, completion
5. Deadline	Start and end dates
6. Milestones	Optional sub-targets
7. Accountability partner	Sponsor or mentor
8. Notifications	Email, in-app, weekly reminders
9. Review & create	Confirm and save

SMART % badge updates as you type — aim for **80%+** before saving.

Automated goals: Select a **metric key** (`applications` , `fna_completed` , `recruits` , etc.) and use **Sync KPIs** for auto-updates.

---

9. My Goals — views and filters

Filters

Search · Status (draft, active, completed, off track…) · Category

View modes

Mode	Best for

List	Spreadsheet with progress, deadline, SMART score
Cards	Visual cards (default)
Timeline	Goals on horizontal timeline
Progress	Emphasis on % complete
Calendar	Deadlines and milestones on month grid
Kanban	Active · Off Track · Completed

Sync KPIs

Pulls latest actuals from Prospects, FNA, production, training, downline into goals with a `metric_key`.

> Run **Sync KPIs** after logging prospect activity, FNAs, or production.

---

10. Activity Scorecard (`/goals/scorecard`)

Answers: "*Am I doing enough activity this period?*"

Period selector

Daily · Weekly · Monthly · Quarterly · Annual

Activity cards

Each shows **actual / target** and a progress bar:

New Prospects · Calls/Contacts · Follow-Ups · Appointments · Presentations · FNAs · Applications · Invitations · Recruits

How targets are set

1. **Primary:** Sum from your active Performance Plan activity goals
2. **Fallback:** Generic weekly defaults (e.g. 25 contacts/week) if no plan

> Create a **Performance Plan** first for the most accurate scorecard.

---

11. What-If Calculator (`/goals/what-if`)

Simulate a target **without** creating goals.

1. Select goal type (income, production, recruiting, rank)
2. Enter target value

3. **Run simulation**

Results: summary cards + full funnel stage table. Saved to history only — does not create goals.

---

12. Goal Reports (`/goals/reports`)

PDF summaries for a reporting period.

Period	Range
Last week	Previous calendar week
Last month	Previous calendar month
Last quarter	Previous calendar quarter
Last year	Previous calendar year

Download PDF or **Email report** to your account email.

Includes summary stats, goals table, category scorecard, and achievements in the period.

Part 3 — Leaders and CFMs

13. Team Goals (`/goals/team`)

For: CFMs, team leaders, agency owners

Summary cards

Members with goals, total/active/completed/off track, average progress.

Scope filter

Scope	Shows
My goals only	Your personal goals in team view
Direct recruits	Direct downline goals
Full downline	Entire downline tree

View modes

All goals · **By member** (rollup per person) · **Needs attention** (off track or behind pace)

Filters: member · status · category · search

Off-track banner — yellow alert with **Review now** when goals need attention.

---

14. CFM Coaching (`/goals/coaching`)

For: CFMs and mentors with coaching access

Workflow

```
flowchart TD
    A[Filter by trainee] --> B[Review goal cards]
    B --> C[Check alerts]
    C --> D[Add coach or voice note]
    D --> E[Follow up in mentor session]
```

- **Trainee filter** pills at top
- Each card: trainee, goal, progress %, milestones, first alert
- **Add coach note** — text or voice upload
- Sidebar: system coaching suggestions + conversion KPIs per trainee

---

Part 4 — Reference

15. Key concepts

Outcome vs activity goals

Type	Example
Outcome	$100,000 income, 12 recruits
Activity	5 daily contacts, 3 FNAs/week

Performance Plans create both, linked in a dependency funnel.

Goal hierarchy

`Vision` → `Annual` → `Quarterly` → `Monthly` → `Weekly` → `Daily`

Goal statuses

Status	Meaning
Draft	Not started

Status	Meaning
Active	In progress
Completed	Target reached
Off Track	Behind pace
Paused	Temporarily suspended
Cancelled	No longer pursued

Example activity funnel

```
Daily contacts → Conversations → Invitations → Appointments
  → Presentations → FNAs → Applications → Production → Income
```

---

16. Automated progress and KPI sync

Source	Example metrics
Prospects	Contacts, invitations, presentations, applications
Production	Annual/monthly premium
FNA	FNAs completed, approved
FAP / Licensing / Training	Completion %
Downline	Recruits, team production
Manual	Income (until payroll integration)

Enable: Choose metric key in Quick Goal, or use Performance Planner (auto-assigned). Click **Sync KPIs** on the hub.

---

17. Alerts, forecasts, and coaching insights

Alert	Default trigger
No prospecting	No contacts in 7 days
No presentations	None in 14 days
No FNA activity	None in 14 days

Alert	Default trigger
Goal behind pace	Projected completion < 80%
Deadline approaching	Within 7 days, not complete

Forecasts show **projected completion %** on hub, blueprint, and CFM coaching.

18. Achievements and badges

Badge	Level	Criteria (summary)
First Recruit	Bronze	1+ direct recruit
First Policy	Bronze	1+ production entry
First Licensed Associate	Silver	Licensing 100%
FAP Graduate	Gold	FAP 100%
Top Producer	Platinum	$100,000+ annual premium
Leadership Builder	Diamond	5+ team recruits

19. Notifications and reminders

Quick Goal Step 8: email, in-app, and weekly reminders. Accountability partners may receive coach copies when configured.

20. Tips and best practices

Planning

- Start with one **Performance Plan** for your primary annual target
- Use **What-If** before rebuilding plans mid-year
- One primary planning type — avoid competing blueprints

Weekly rhythm

- **Scorecard** every week; **Sync KPIs** after field work
- Review **Success Blueprint** monthly — focus on weakest funnel stage
- **Quick Goals** for personal development outside the business funnel

CFMs and leaders

- Filter **Needs attention** weekly
- Download **monthly reports** for mentor meetings
- Set milestones on big goals for better visibility

---

21. Troubleshooting

Buttons or dropdowns do nothing

Cause: Stale page or JavaScript issue.

Fix: Hard-refresh (`Ctrl+F5`). Ensure JavaScript is enabled.

PDF download does not start

Cause: Pop-up blocker or wrong method.

Fix: Use **Download PDF** on `/goals/reports` ; allow downloads from your GWTrack domain.

Sync KPIs shows no change

Cause: No metric key, or activity outside goal date range.

Fix: Confirm automated metric on goal; log activity in source module first. Manual metrics (income) don't auto-sync.

Scorecard shows 0% or low targets

Cause: No Performance Plan.

Fix: Create a plan — otherwise generic weekly defaults apply.

Forecasts empty

Cause: No goals with deadlines and measurable progress.

Fix: Create active goals or a Performance Plan.

Team Goals shows no members

Cause: No downline or wrong scope filter.

Fix: Verify downline relationships; try Direct vs Full downline.

CFM Coaching shows no trainees

Cause: No mentor assignment or trainee goals.

Fix: Confirm mentor assignments; trainees need active goals.

Permission denied (403)

Fix: See Section 2 or Appendix F.

---

22. Appendix

A. Goal categories

recruiting · production · prospecting · financial_review · fap · licensing · cfm_development · leadership · training · rank_advancement · income · personal_development

B. Measurement types

number (counts) · currency (dollars) · percentage · completion (checklist-style)

C. Rank advancement defaults

Rank	Production	Recruits	Licensing	FAP	Training
SM	$50,000	2	100%	100%	80%
ED	$150,000	5	100%	100%	100%
SED	$300,000	10	100%	100%	100%

D. Income planning defaults

Constant	Default
Commission rate	20%
Avg premium per application	$2,500
Working days per month	22
Working weeks per year	48

E. Related guides

Guide	Topic
Prospects & Sales Funnel	CRM activity that feeds KPI sync
FNA Management	FNA goals and metrics
Training Academy	Training completion metrics
Help & Support	All module guides

F. Permission reference

Permission	Allows

`manage goals`	Personal hub, planner, scorecard, what-if, reports, quick goal
`view team goals`	Team Goals page
`coach goals`	CFM Coaching workspace
