GWTRACK USER GUIDE

GWTrack Welcome Orientation

Portal purpose, dashboard, trackers, resources, communications, team visibility, and your first-week path.

AUDIENCE	FORMAT	PORTAL
Associates, CFMs, leaders, and owners	**Orientation guide**	**GWTrack**

GWTrack Welcome Orientation

Audience: New associates, returning members, Certified Field Mentors (CFMs), team leaders, and agency owners
Purpose: Introduce what GWTrack is for, how the portal is organized, and where to go for daily work
Related guide: For a full menu-by-menu reference, see GWTrack Application User Guide

Welcome

Welcome to **GWTrack** — the private operating portal for Greatway Financial Group teams.

GWTrack is designed so you always know **what to do next**, your CFM and leaders can **see progress clearly**, and the tools you need for prospecting, licensing, training, mentoring, and production live in **one place**.

This orientation walks you through:

1. Why the portal exists
2. How the layout works
3. Your dashboard (command center)
4. Progress trackers and checklists
5. Learning and resources
6. Communications and scheduling
7. Team visibility and mentoring areas
8. CRM and prospect tools (when enabled for you)
9. What to do in your first days
10. Where to get help

You will only see menu items your **role and permissions** allow. If something described here is missing from your sidebar, it is intentional for your current access level.

1. Portal purpose

What GWTrack is

GWTrack is your **agency operating system**. It connects the work associates do every day into a shared, trackable journey:

Journey stage	What GWTrack helps with
Join & orient	Invitation registration, profile setup, onboarding checklist
Get licensed	Licensing milestones, compliance & renewals
Learn & grow	Training Center (Academy), assessments, CFM training
Apprentice	Field Apprenticeship Program (FAP) with CFM guidance
Produce	Prospects, FNAs, appointments, production posting
Recruit	Invites, recruiting pipeline, downline visibility
Advance	Goals, rank advancement, recognition
Lead & mentor	Team dashboards, CFM Portal, coaching tools

What GWTrack is not

- It is **not** a public website. Access requires an invitation (or admin account creation) and an active login.
- It is **not** a replacement for carrier portals or licensing boards — it **tracks** your progress and keeps your team aligned.
- Ranks (FA → EP) are **Greatway advancement levels**. Roles (member, CFM, team-leader, agency-owner, admin, etc.) control **what you can see and do inside GWTrack**.

Core principles

- **Clear next steps** — Trackers and tasks show what is open, pending confirmation, or due.
- **Hierarchy visibility** — Unless content is marked global, you generally see your own records and your sponsorship downline — not the whole company.
- **Confirmation when it matters** — Many checklist items you mark complete may need a CFM, sponsor, or leader to confirm before they count as finished.
- **One hub for the team** — Resources, announcements, calendar, mentoring, and CRM tools stay connected to the same member profile.

---

2. Finding your way around

After you sign in, you land on **My Dashboard**. The screen has three main areas:

Area	What it does

Top bar	Global search, notifications bell, account menu
Left sidebar	Main navigation, grouped by work area
Main content	The page you are working on

Sidebar groups (current portal map)

Expand or collapse a group by clicking its name. Groups you open are remembered in your browser.

Group	Focus
My Workspace	Dashboard, profile, tasks, invites, daily activities, messages, calendar, appointments
My Progress	Onboarding, FAP, licensing, compliance, assessments, rank, CFM training, goals, production
Learning & Resources	Training Center plus documents, videos, webinars, and links
CRM Funnel System	Cross-pipeline CRM views (permission-based)
Prospect Management	Personal sales CRM, recruiting pipeline, FNA, follow-ups
My Team	Downline dashboard, directs, genealogy, hierarchy, org chart
Mentoring & CFM	CFM Portal, trainees, effectiveness, mentor scheduling
Communications	Notifications, support, hub, campaigns, recognition, events
Admin Management	Setup and administration (leaders / admins only)

Global search

Use the search box in the top bar to find team members (when allowed), prospects, documents, videos, training, tasks, calendar events, and announcements. Type at least two characters. Results respect your permissions.

Notifications

The **bell** shows recent alerts (tasks, mentoring, training, announcements, checklist confirmations, and more). Open **Communications → Notifications** for the full inbox and delivery preferences where enabled.

---

3. My Dashboard — your command center

Path: My Workspace → **My Dashboard** (`/dashboard`)

The dashboard greets you by name and rank/team, then surfaces what matters today.

What you typically see

Element	Why it matters

Welcome message	Confirms your rank and team context
Daily quote	Short motivation for the day
Profile completion	Highlights missing required profile fields so your team can support you
Progress trackers	Percent complete for Onboarding, Licensing, FAP, Training, and Goals (when enabled)
Quick actions	One-click paths to tasks, prospects, training, messages, calendar, bookings, resources, and more
Quick links	Curated external / library links by category

Quick actions adapt to your permissions. Examples include:

- Open **My Tasks**
- **Create My Team** (when eligible)
- Jump into **Prospects** or log **Prospect Activity**
- **Schedule Phone Call**
- Continue **Training**
- Open **Messages**, **Goals**, **Calendar**, **Book Session**, or **Resources**

How to use the dashboard each day

1. Check **profile completion** if a prompt appears — finish required fields first.
2. Scan **progress trackers** — click any that lag behind.
3. Use **quick actions** for the work you will do today.
4. Review the **notification bell** for confirmations or assignments waiting on you.

Leaders may also see team-oriented summaries and alerts depending on role.

---

4. Trackers and personal progress

Path: Sidebar → **My Progress**

Trackers are checklist- and milestone-driven pages that answer: *Where am I, and what is next?*

How checklists work

1. Open the tracker for your program (for example **My Onboarding**).
2. Complete the work described for each item.
3. Mark the item done in GWTrack.
4. If the item **requires confirmation**, it moves to a pending state until a notified party (often your CFM, sponsor, or leader) confirms or sends it back.
5. If confirmation is **not** required, the item can complete automatically when you mark it done.

Country-specific steps appear only when they match your profile country. Required vs optional steps are labeled on the checklist.

Responsible / notified party codes you may see on items include **Self**, **SP** (sponsor), **AO** (agency owner), **TL** (team leader), **CFM**, and **TR** (trainer).

Tracker overview

Tracker	Path	Purpose
My Onboarding	`/onboarding`	New-member orientation: agreements, setup, first actions
Licensing Tracker	`/licensing`	Study, exam, application, appointments, and related milestones
Compliance & Renewals	`/compliance`	Ongoing licenses, E&O, AML, CE, carrier appointments after initial licensing
Field Apprenticeship	`/field-apprenticeship`	FAP phases completed with your CFM
CFM Training	`/cfm-training`	Path to Certified Field Mentor certification
Assessments	`/assessments`	Knowledge checks tied to learning
Rank Advancement	`/rank-advancement`	Rank ladder, requirements, and evidence
Goals & Performance	`/goals`	SMART goals, planner, scorecard, coaching views (permission-based)
Production Dashboard	`/team/production`	Posted production trends; leaders see team rollups

Related workspace tools

These live under **My Workspace** but support the same progress story:

Tool	Purpose
My Profile	Contact info, photo, licenses, production entries, invites, checklist snapshot
My Tasks	List / board / calendar of personal and team tasks
My Invites	Registration invitation links for new recruits
My Daily Activities	Activity logging tied to your day-to-day execution
My Calendar	Personal and shared calendar events
My Appointments	Booking requests and mentoring / appointment sessions

Tip for new associates

In your first weeks, prioritize this sequence:

Profile → Onboarding → Training Center → Licensing → Tasks from your CFM → Resources

Your dashboard progress widgets will reflect that same journey.

5. Learning and resources

Path: Sidebar → **Learning & Resources**

Training Center (GWTrack Academy)

Path: `/training`

Self-paced learning for courses, learning paths, assignments, certifications, and achievements. Leadership or your CFM may assign required courses. Coaching views help mentors monitor trainee learning.

Use Training Center when you need structured lessons; use the Resource Library when you need a document, script, or recording quickly.

Resource Library

Area	Path	Use it for
Library Home	`/resources`	Overview of the library
Documents	`/resources/documents`	PDFs, packets, forms, scripts — preview and download
Videos	`/resources/videos`	Training and skills videos
Recorded Webinars	`/resources/recorded-webinars`	Archived live sessions
Links	`/resources/links`	Quick links, Zoom rooms, external tools

Favorites: Star important documents so they are easy to find again from the library experience.

Resources may be global to the agency or scoped by category. If you cannot open a file, ask your CFM or leader — access can be permission- or role-based.

6. Communications

Path: Sidebar → **Communications** (plus Messages / Calendar in **My Workspace**)

Staying connected is part of how the team operates — not an optional extra.

Area	Purpose
Notifications	Full alert inbox for tasks, checklists, mentoring, training, and system messages
Help & Support	Submit a support ticket; browse help content when available
Communication Hub	Company / agency announcements and featured posts
Leadership Desk	Leadership publishing and monitoring tools (leaders)

Area	Purpose
Campaigns	Multi-step communication campaigns
Recognition	Celebrate wins on the recognition wall
Events	Agency event agenda and details
My Messages	Direct and group conversations with teammates (when enabled)
My Calendar	Schedule visibility for personal, team, and agency events
My Appointments / Mentor Scheduling	Book mentoring sessions; mentors manage availability and booking links

Communication habits that work

- Check the **bell** at the start and end of your day.
- Read **Communication Hub** announcements so you do not miss policy or event updates.
- Use **Messages** for quick coordination; use **tasks** when something needs a due date and owner.
- Book mentoring time through **Appointments / Mentor Scheduling** instead of ad-hoc only chats when a formal session is needed.

---

7. Team visibility areas

Path: Sidebar → **My Team** and **Mentoring & CFM**

Visibility follows **sponsorship hierarchy**: you see yourself, your directs, and downlines under them (unless a feature is explicitly global or specially permissioned).

My Team

View	Best for
Downline Dashboard	Team command center — size, health metrics, alerts, shortcuts
My Directs	First-level recruits only
All Downlines	Full downline directory
Genealogy Tree	Visual sponsor relationships
Hierarchy Table	Depth, rank, and contact details in a table
Org Chart	Presentation-style structure

Click a member (when permitted) to open their member profile — contact info, checklists, production, and support context for coaching.

Mentoring & CFM

Area	Who uses it	Purpose
CFM Portal	CFMs	Trainee roster, mentoring workspace, session and assignment context
My Trainees	CFMs	Focused list of members you mentor
CFM Management	Leadership	Assign CFMs, capacity, FAP-related queues
CFM Effectiveness	Leaders / mentors	Mentorship quality metrics, reviews, insights
Trainee CFM Evaluation	Trainees (when enabled)	Provide feedback on mentoring experience
Mentor Scheduling	Mentors	Booking links, availability, session requests

Create My Team

Eligible members can create a named team from the dashboard and move their recruit hierarchy onto it. Ask leadership if you are unsure whether this applies to you yet.

---

8. Prospects, CRM, and production (when enabled)

These areas appear when your role includes prospect / CRM permissions. They are how personal production and recruiting become visible and manageable.

Prospect Management

Path: Prospect Management group

Your **private insurance sales CRM** — prospects belong to you unless shared.

Common tools:

- Summary dashboard and prospect lists
- **Follow-Up Center** and **Activity Logs**
- **Sales Pipeline** (insurance funnel kanban)
- **Appointments**
- **FNA Management** (financial needs analysis workflows and CFM review queues)
- **Analytics & Goals**, **AI Coach**, **Import Prospects**
- **Access Manager** for sharing rules

Recruiting Pipeline

Separate from the insurance sales funnel. Use it to move associate candidates from interest through registration, licensing start, and active associate status.

CRM Funnel System

A permissioned set of funnel views (leads, sales, recruiting, onboarding, FAP, licensing, compliance, contracting, consultant tracker). Use it for broader pipeline visibility when your role includes CRM funnel access.

Production

Post production from **My Profile**. Review personal and (for leaders) team production on the **Production Dashboard**. Production often feeds goals and leadership visibility.

---

9. Roles at a glance

Role (examples)	Orientation focus
New associate / member	Profile, onboarding, training, licensing, tasks, resources, messages
Certified Field Mentor	CFM Portal, My Trainees, checklist confirmations, FNA review, mentor scheduling
Team leader	Downline Dashboard, team goals/production, prospect coaching, communications
Agency owner	Agency visibility, CFM assignment, admin setup areas as permitted
Trainer / admin	Training setup, checklists, user management, support queue (as permitted)

Ranks (FA, SFA, SM, ED, SED, NED, EP) describe Greatway advancement. They do not automatically unlock every GWTrack tool — **roles and permissions** do.

---

10. Your first-week orientation checklist

Use this as a practical welcome plan. Check items off with your CFM or sponsor.

Day 1 — Arrive and set up

- ☐ Sign in and complete **email verification** if prompted
- ☐ Open **My Profile** — photo, phone, timezone, country/jurisdiction, GW Associate ID details as required
- ☐ Clear **profile completion** items on the dashboard
- ☐ Find **My Messages** and send a short hello to your sponsor or CFM
- ☐ Browse **Communication Hub** for current announcements

Days 2–3 — Orientation trackers and learning

- ☐ Start **My Onboarding** and mark completed steps
- ☐ Open **Training Center** and begin assigned or recommended courses
- ☐ Bookmark key **Documents** (welcome packet, scripts, how-to guides)

- ☐ Review **My Tasks** for anything assigned to you

Days 4–7 — Licensing, calendar, and rhythm

- ☐ Open **Licensing Tracker** and understand your next milestone
- ☐ Add important dates to **My Calendar**
- ☐ Learn how **notifications** and checklist **confirmation** work with your CFM
- ☐ If prospecting is enabled for you, take a guided tour of **Prospect Management** with your mentor
- ☐ Schedule your next mentoring touchpoint via **Appointments / Mentor Scheduling**

Ongoing weekly rhythm

Cadence	Habit
Daily	Dashboard → tasks → notifications → one progress tracker push
Several times a week	Training lessons; prospect/recruiting activity if active
Weekly with CFM	Review checklist confirmations, FAP/licensing blockers, goals
Ongoing	Keep profile licenses and compliance records current

---

11. Visibility and privacy — what others can see

Understanding visibility builds trust and prevents surprises.

- **Your private CRM prospects** stay yours unless you share them.
- **Downline / mentoring views** let sponsors, CFMs, and leaders see progress appropriate to their role.
- **Global resources and announcements** may be visible agency-wide.
- **Admins** can manage users and setup tables; that does not mean every member can see every other member's CRM.
- If you believe someone should (or should not) see a record, ask your team leader or agency owner — access is permission-driven.

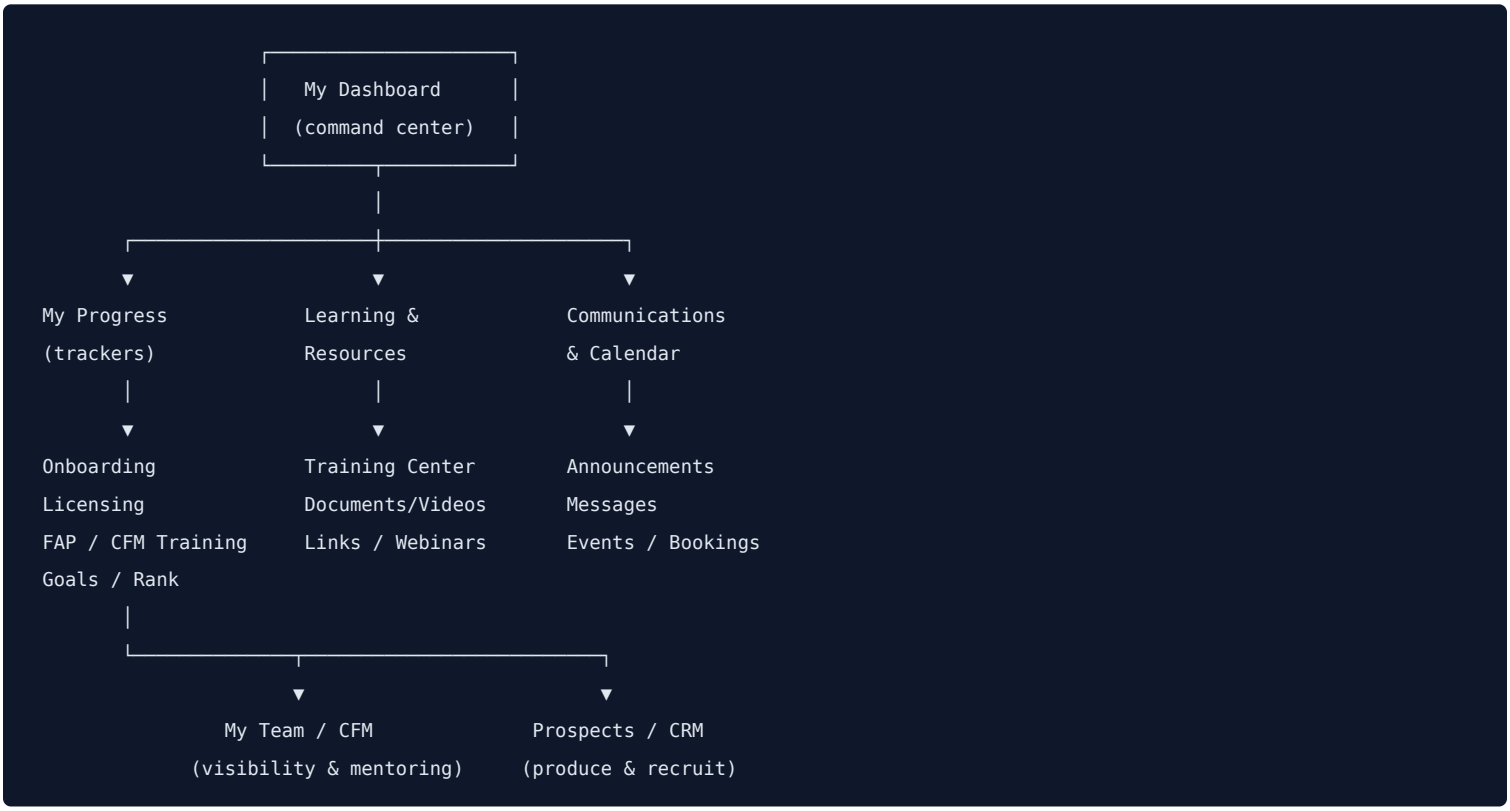

---

12. Getting help

Need	Where to go
How do I use a feature?	This orientation + Application User Guide
Training Academy detail	Training Academy User Guide
Prospects / sales funnel	Prospect Sales Funnel User Guide
Goals & performance	Goals and Performance User Guide

Need	Where to go
Scheduling / bookings	Scheduling Booking Module
Something is broken or blocked	**Communications → Help & Support** (submit a ticket)
Process or expectation question	Your **sponsor**, **CFM**, or **team leader**

13. Orientation map (one-page mental model)

Remember: GWTrack exists so growth is visible, coaching is structured, and your next step is never a mystery.

Closing

You do not need to master every module on day one. Start with **Dashboard**, **Profile**, **Onboarding**, **Training**, and **Resources**. Let your CFM and sponsor guide you into licensing, FAP, prospects, and team tools as your role expands.

Welcome to the team — and welcome to GWTrack.
